

KYNETON ELECTRICS

Kyneton Electricians is celebrating 25 years in business and to celebrate the occasion is offering customers who spend more than \$200 with them in the next two months, the chance to go into a draw to win seven nights' accommodation at Helms Bay Cottage at Cygnet in Tasmania.

It's their way of saying 'thank you' to their clients who have helped make Kyneton Electricians the success it is today.

Locally owned and operated by Rod and Jenny Hassett, Kyneton Electricians has also played a part in employing and helping young people begin a career. Throughout the years they have employed more than 25 apprentices and most have gone on to begin their own businesses.

Right now they have eight A grade electricians and three apprentices on staff.

Kyneton Electricians cover all electrical needs from changing a power point through to lighting sporting ovals. Major projects completed recently include lighting Dixon Field, Gisborne, and new street lighting in Malmsbury.

They support a number of community groups within the shire such as the Kyneton Aquatic Centre, Kyneton and Trentham Football Netball Clubs and support both Kyneton Secondary College and Sacred Heart College by taking in students for work experience.

The backbone of the success of the business is prompt and efficient customer service, free phone support from the manned office and the ability to respond at a moment's notice.

Rod and Jenny are very proud that their business is stronger today than ever before and they take great pride in being the winners of the Macedon Ranges Business Excellence Awards 2007 Business of the Year and Excellence in Trade.
